COACHING POINTS

- Walk-through: alignment, split, and route depth for your assignments.
- Strike timing on stalk block — inside hand fit, under control into contact.
- Stay locked in: eyes up, assignment first, next-play reset.

NOTES

Play	Note
20	Nice initial route getting to the open spot. Even better job following scramble rules and getting yourself open + downfield. Breaking tackles and really opening up the speed showing your game us dynamic and you can do a lot with the ball in your hands. Your confidence is showing good job!!! Eventually you will learn to pick up your feet when you breaking away so those show string tackles don't work.
34	Not bad on the route, make sure to sell the out more before you get back vertical
35	Bad ball so i wont say drop here but this look catchable so lack of focus was what i decided was fair.
65	good job now holding here came close but you made the right choice to let go
89	Completely missed block here and seemed like you weren't ready for the rep when the snap happened gotta make sure you maintain focus ALSO on bubble missing this block leaves the slot vulnerable to being BLOWN up
104	Its annoying at WR to have good effort on the goalline run plays this was good effort and needed, good job.
115	Didn't do the best job holding your block here the level of effort is low i'm assuming its because the game was won ??
116	uncatchable ball
